Come again, rain!

While you are swatting the fly, don't forget to give the mosquito his just dues.

Vancouver is to have its beer and ice inspected. Wonder which job there will be the most applicants for!

The past few days' rain fell on the just and the unjust: the farmer with no weeds in his grain, and the farmer with.

Help to make Coronation Day memorable to the kiddies. Help them to have the time of their lives. You'll enjoy it yourself.

"Just what was wanted" is the verdict of every farmer, after the past few days' rains. Providence has limited upon the farmer this time, and the farmer smiles some, too.

Cayley on a Boom

We've done the lot, we've got the rain. We have the soil to make the grain. We'll ship it out on every train. We have no doubt, we're sure to gain. And with the price we're sure to get. We'll break the ice and pay our debt. You know 'tis good, while traveling through. This world of wood, to pay our due. Then come with us, join in our song. We'll make a fuss, we're roasting throng. And don't go wrong now on your life. But bring along your happy wife. The children, too, must have their parts. To make them true, God bless their hearts. We'll train them now to duty do. And show them how to battle through. Come girls and boys, the call's to you. Come make a noise, and show you're true. Join hand in hand and move ahead. To grace the land and earn your bread. To greater strength when you have grown. You'll find at length this land's your own. When from your toil you seek to rest, By this dear soil you'll find you're blest.

Landing on the Fly

A good slogan for young and old for the next few months is "Swat the flyski!"—Lethbridge Herald.

And where should the swatski be applied? Behind the earski or on the chinovitch?—Calgary Herald.

Neither. Tickle him on the navelski and he will die alafrin.

An Exclusive Church

An old darty wanted to join a fashionable city church, and the minister, knowing it was hardly the thing to do, and not wanting to hurt his feelings, told him to go home and pray over it. In a few days the darty came back.

"Well, what do you think of it by this time?" asked the preacher. "Well, sah," replied the colored man, "Ah prayed, an' prayed, an' de Lawd he says to me, 'Rastus, Ah wouldn't boder mah haid 'bout dat no mo'. Ah've been trying to get into dat chuch, mahself for de las' 20 years and Ah done had go luck.'"

Mr. Woods, who resides some seven miles west of Cayley, met with a fatal accident last week, under somewhat peculiar circumstances. He had two stud horses in his stable, which commenced to fight. Mr. Woods went out to see what was the matter, and entering the stable he tried to separate the infuriated brutes, when he was fatally kicked by one of them. The unfortunate man lingered until the next morning, when he succumbed to his injuries.

Calgary Exhibition

The Calgary Industrial Exhibition Co. have during the past few years issued some very attractive hangers advertising their exhibition. Many will remember the hanger of 1908 depicting "Another Trail Cut Off." The hanger issued this year is considered by many as the best hanger yet published by this country. It shows a cow-boy on the range who has suddenly sighted an aeroplane in the air, and he immediately endeavors to show his ability by throwing his lariate which is shown as just having circled the head of the aviator. It is a two color lithograph, and shows the name of the Exhibition and date, June 30th to July 7th, very prominently. As long as they last copies may be had on application to E. L. Richardson, Victoria Park, Calgary.

Quite a number expect to be present from here at Hon. Frank Oliver's meeting at High River on Wednesday.

A newspaper editor in one of the Manitoba villages had the joke on a citizen of his burg not long since. The citizen and his family were great admirers of the departmental store, and buy all their goods in Winnipeg. A few weeks ago a daughter of the citizen got married, and the entire wedding paraphernalia, including the invitations, were purchased in the city. The day after the wedding the bride's father brought to the newspaper office a long account of the event, but when the paper appeared it contained nothing about the wedding but an announcement of three or four lines. Next day the citizen called at the newspaper office to demand an explanation why the report of the wedding had not been printed. "Oh, that's alright," said the editor. "You'll likely find it in Eaton's spring catalogue."—Horden Herald.

High River Conservatives are making great preparations for the R. L. Borden meeting there on Monday next.

The weed inspector states that he has issued his final warning and will now begin proceedings against violators of the ordinance.

Sound Advice

FARMER—Well wife, the barn wants painting, the fence is down, the chickens are in the garden, the doors are off the granary, the pump's no good, we haven't a knife that we can cut the meat, the lincum is full of holes, the house is swarming with flies, the chickens are covered with lice, we haven't got a decent chair to sit on, the buggy squeaks worse than a German band, the cows swallowed the wire stretchers, and the pig eat the hammer. I think we'll quit farming.

WIFE—Let us go and see McMeekin & Scragg and get the place fixed up. We're going to have a good crop this year, and I know the boys will treat us right.

Doughty Colonel Saw Little Remark-

able About the Pyramids.

Lieutenant-General Sir James Wolfe Murray has celebrated his fifty-eighth birthday. He entered the Royal Artillery in 1872, and served in the Ashanti campaign in 1890, being in command of the line of communication. He was twice mentioned in despatches for services in South Africa from 1899 to 1900, and was Master-General of the Ordnance from 1904 to 1907, when he became commander of the Ninth (Scandinavian) Division in India.

Sir James has a budget of anecdotes, which once opened a warrant to enquire the dullest gathering. He is a keen sportsman, and gets all the points possible out of his stories. One of his most amusing yarns deals with his own branch of the service.

Some years ago, a certain colonel in the British Royal Artillery had the reputation of lacking in imagination, and happened to be visiting Egypt with some friends, and naturally went to see the Pyramids. "So there are the Pyramids," he said, as he gazed stolidly at them. "Yes," replied an enthusiastic friend, "they are not wonderful—stupendous, oh, yes, they are, but they are not wonderful."

"I should say they were," returned his friend, "they are the most wonderful thing that ever stood on the face of the earth." "Why?" coughed the colonel, unimpressed. "Give me a couple of miles of guns and I'll guarantee to knock them to pieces inside a week."

Another of his stories concerns an Italian old colonel who was bringing a flock of about two laughing jackasses.

On board ship he engaged a Chinese boy to attend to them. One morning the boy found that the larger of them had died in the night. In great fear he knocked at the door of the colonel.

"Hullo, what's the matter?" asked the owner of the animals. "If you please," stammered the boy, "I've come to tell you about your laughing jackasses."

"Well, is there anything wrong?"

"No, sir, there's nothing wrong with 'em, but one of 'em isn't got anything to laugh at."

Sir James is vacating his command in India on the completion of his four years' tenure, and will shortly return to his home in Perthshire.

Contentious and Tolerant.

An East Indian, who has learned some of the elementary principles of surgery and dentistry, put his knowledge to a decidedly practical use as well as novel use one evening when he was walking upon a city plaza.

When the Hindoo had reached the plaza, he saw a man of the color of the tiger ahead of him, 500 or 600 yards in front of him.

THE BRIGHTEST DAY
FOR EVERY WOMANComes With Good Health
from the use of Dr.
Williams' Pink Pills.

Her brightest day for every girl and every woman is the day when she looks well, feels well, and is well, but with most of the fair sex such days are rare. Instead they suffer from a painful languor, a terrible weakness in the head, headaches that make everything seem blurred, and a ceaseless aching in the limbs. These and other troubles afflict girls and women through the lack of rich, red blood nature is calling for. Dr. Williams' Pink Pills have given the joy or real robust health to thousands of women who are in today because these Pills actually make the blood, red blood that is healthy, well and strong. This statement has been proven over and over again. Here is further proof from Mrs. C. J. Brook, Manitowish, Man., who says: "After a busy term on second class work, followed only by a short time of relaxation, and a strenuous term and a half month normal course, in March, 1900, I began teaching school. I had a heavy rural school, with a large attendance, and consequently a number of extra hours. I began to feel a great weariness. This led to the overwork of study, which resulted in a nervous condition. When vacation time came I did not pay much attention to my condition as I thought the holiday would fully restore me, but as I resumed work again I soon found this was not the case. One morning when I came to breakfast everything seemed before me and I felt faintly away. The lady with whom I was boarding advised me to take Dr. Williams' Pink Pills, and as I had already spoken very highly of them, her daughter having said to me that the best beneficial results following a severe attack of influenza were obtained by taking these pills. I decided to take a box of advice, and had only taken a few boxes when I began to improve in health, and such an appetite as I had. I rapidly gained health, my face had a healthy glow, and I gained in weight. I have since then recommended Dr. Williams' Pink Pills to others who have used them with equally beneficial results, and I can truly say to be a standard remedy for the ill for which you recommend them."

You can get these Pills from any medicine dealer or by mail at cents a box or six for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

What a terrible statement we get for our children when we remind them of the perfection of our child-hood days.

Away With Depression and Melancholy.—There are two evils the accompaniment of a disordered stomach, and these are the worst. The worst and neediest way to combat them is with Peruna and Vegetable Pills, which will restore the healthful action of the stomach and bring relief. They have proved their merit to thousands of cases, and are the only pills to give relief to the suffering who are unable to eat.

There is another another remedy to "Mount Vesuvius," and Mrs. Portington, as the put it, "has been cured. The paper tells us about the burning that's running down the hill, but it didn't tell how it got off."

The automobile factories of Michigan employ 20,000 men, in addition to 20,000 engaged in the manufacture of parts.

The union service last Sunday evening in the Presbyterian hall was very largely attended. Dr. Stanley of High River took charge of the service and gave a heart to heart talk on "gambling." Like many of the Jews of old, at the Pentecost, "many were pricked in their hearts," while the doctor told of the evils of this terrible scourge in this Western country. It is to be hoped that the doctor's words of warning will bear much good fruit.

RULE BRITANNIA

When Britain first at Heaven's command,
Arose from out the azure main,
This was the charter of the land,
And guardian angels sung the strain:
(School) Rule Britannia, rule the waves!
For Britons never will be slaves.

The nations not so blessed as thee—
Must, in their turns, to tyrants yield;
Whilst thou shalt flourish, great and free,
The dread and envy of them all:
(School) Rule Britannia, rule the waves!
For Britons never will be slaves.

Still more majestic shalt thou rise,
More dreadful from each foreign stroke;
As the loud blasts that tear the skies
Serve but to root thy native oak:
(School) Rule Britannia, rule the waves!
For Britons never will be slaves.

Thee, haughty tyrants ne'er shall tame:
All their attempts to bend thee down
Will but arouse thy generous flame,
And work their woe, but thy renown:
(School) Rule Britannia, rule the waves!
For Britons never will be slaves.

To thee belongs the rural reign:
Thy cities shall with commerce shine;
And thine shall be the subject main,
And every shore it circles thine:
(School) Rule Britannia, rule the waves!
For Britons never will be slaves.

The Muses still with freedom found,
Shall to thy happy coast repair;
Blest Isle with matchless beauty crowned,
And many hearts to guard the fair:
(School) Rule Britannia, rule the waves!
For Britons never will be slaves.

THE LAND OF THE MAPLE

O Canada! My Canada!
My thought is all of thee,
Thy mountain chains and smiling plains,
That stretch from sea to sea;
The sunlight gleams on murmuring streams,
And sweetest melody
Pours from thy feathered songsters
In the spreading maple tree.

CHORUS.
O the Land of the Maple
Is the land for me,
The home of the stalwart,
The brave and the free,
The rose and the thistle,
The shamrock and the lea,
All bloom in one garden,
'Neath the maple tree.

O Canada! My Canada!
None can compare with thee;
'Neath smiling skies the earth replies,
And laughs with harvest glee;
Thy winters cheer, with air so clear,
But best of all to me,
The summer and the sunshine,
And the spreading maple tree.

CHORUS.
